Service Area description

The Inclusive Growth and Placemaking service focuses on the planning and delivery of places and an economy that can transform the health, well-being and prosperity of our communities. It seeks to achieve this through the creation of a quality built and natural environment, vibrant and accessible places, business growth and inward investment, the delivery of housing and essential infrastructure and the provision of attractive and engaging public facilities.

The Development and Implementation service area seeks to directly support this objective by delivering a high quality and efficient planning service, in supporting the delivery of major projects, sustainable growth and in supporting the delivery of major programmes.

Purpose of this post

To provide management and leadership to the minerals and waste planning team within the Development and Implementation service in respect of strategic development; operational development and delivery; budgetary control and management; adherence to legislation, statutory duties and all relevant policies and procedures.

To advise the Council on all matters relating to Minerals and Waste Planning and to take an active role in the development of Council policies and management of corporate initiatives. To provide a key role in advancing the development opportunities of Cumberland, through the implementation of development management techniques and ensuring that the appropriate planning policies are in place.

Key job specific accountabilities

1. To assist the Service Manager with any strategic consultations, developments and reviews as required.
2. To manage the team to ensure a high quality, efficient & customer focused service that is proactive in helping to facilitate the delivery of high-quality sustainable development that contributes to the delivery of the Council's strategies and plans for economic growth and housing delivery with particular focus on Minerals and Waste development management, planning compliance, monitoring and project support.
3. To assist in the appropriate budgetary controls are in place to ensure effective and efficiency use of resources, quality controls and reporting procedures/mechanisms.
4. Providing guidance and advice to staff, members, partner agencies and the public in respect of statutory and regulatory functions using a wide range of specialist knowledge.
5. To ensure all financial requirements are complied with.

6. Take a key role in ensuring key development opportunities are identified and supported through the planning process in line with the Council's priorities. This will include those instigated and managed by the council and those which are the aspiration of developers.
7. Assisting in the development and production of the Cumberland Local Plan and associated documents as a key area of Council policy.
8. To develop, manage and maintain excellent working relationships with developers, statutory bodies, professional agents, councillors, parish and town councils, service providers, other council officers, community organisations and members of the public and apply the highest levels of customer care towards maintaining those relationships, helping local communities to understand and maximise the benefits of new Minerals and Waste development and ensure this approach is consistently applied by the team.
9. Keep up to date with all new relevant legislation, government regulations, circulars and guidance and advise relevant parties within the Council of their implications.
10. Line management responsibility for all Planning Officers within the team and the implementation of agreed employment related practices and policies.
11. Responsible for the ongoing improvement of planning services in terms of their efficiency and effectiveness.
12. Prepare reports, presentations and other papers and attend committees, working / task groups and other meetings as required and support in the efficient management of the Council's Planning Committee, including chair and other members' briefings, liaison and specialist member training.
13. Any other work relevant to the planning function as may be reasonably required from time to time.
14. To represent the Council and act as advocate for its objectives in dealings with members and officers of outside agencies at a senior level.
15. On request, act as an 'expert witness' on behalf of the Council in respect of minerals and waste planning activities within the respective local area and maintain up to date knowledge of relevant legislation, regulation, national guidance, standards, and industry practice.
16. To ensure that Council members, members of partner organisations and the general public are able to gain an understanding of the complex issues and specialist information associated with the development of policy and the consideration of minerals and waste planning applications and thus are able to make an informed contribution to decision making.
17. The post holder will be responsible for business continuity for their team/area.

Please note annual targets will be discussed during the appraisal process
