District Deprivation Summary

Copeland

2015

The Indices of Multiple Deprivation (IMD)

The IMD are produced by the Department for Communities & Local Government (DCLG) to consider the unmet needs of small areas, known as Lower Super Output Areas (LSOAs), caused by a lack of resources of across seven domains:

- Income;
- Employment;
- Education Skills and Training;
- Health and Disability;
- Crime;
- Barriers to Housing and Services; and
- Living Environment.

In addition to the above, there are two supplementary indices:

- The Income Deprivation Affecting Children Index (IDACI); and
- The Income Deprivation Affecting Older People Index (IDAOPI).

Deprivation scores for each LSOA across all of the above domains are also combined to create an overall Index of Multiple Deprivation score and rank for each LSOA.

When deprivation scores are combined for all LSOAs in Copeland, the district is classified as the second most deprived district in Cumbria for overall deprivation and falls within the 30% most deprived nationally for overall deprivation. It also falls within the 20% most deprived nationally in terms of employment deprivation and the 10% most deprived nationally in terms of health & disability deprivation.

The following six LSOAs in Copeland rank within the 10% most deprived of areas in England:

Figure 1: Copeland's LSOAs that rank within the 10% most deprived in England:

LSOA	Ward	District	Overall ID Score (higher = more deprived)	Overall ID Rank (out of 32,844 nationally)
E01019263	Cleator Moor North	Copeland	70.992	238
E01019267	Cleator Moor South	Copeland	57.559	1,158
E01019277	Frizington	Copeland	51.594	1,946
E01019280	Harbour	Copeland	49.872	2,243
E01019295	Mirehouse	Copeland	47.683	2,654
E01019301	Sandwith	Copeland	46.827	2,821
