## **Local Economy Indicators - February 2025**

These indicators have been selected to provide headline monitoring of trends in the Cumbrian economy. Some indicators are available on a monthly basis, others only quarterly or annually. More detailed information and additional indicators are available in the monthly Economy Tracker available on request from ginny.murphy@cumberland.gov.uk

KEY: Shading in value columns indicates whether the latest value in the local area is better (green), similar (amber) or worse (red) than the national average.

Change arrows show whether the value has increased or decreased from the previous measurement period - the nature of the indicator should be taken into account when assessing whether this indicates improvement or deterioration.
